

24th March 2016

Dear Parents and Carers

Still no end in sight to the transformation of the outdoor area, maybe by the end of the Easter holidays...

We have really enjoyed finding about the Easter Story and the many Easter traditions. I am sure you will enjoy the children's creativity as they all made their own Easter cards. We hope you all had a fun at the Easter Egg Hunt and found the word 'rabbit!'

In phonics the children have consolidated their understanding of phonics by reading and writing captions with phase 3 digraphs and trigraphs and of course those tricky words. We will continue with this in the first week of the Summer term.

In maths the children will be counting objects to 20, focusing particularly on the challenging teen numbers. The children will also be counting in 10's to 100.

Lastly do not forget the school will re-open on Tuesday 12th April. The first week will become terrific techie experts so make a head start by looking at technology all around you. We plan to invite the children to bring in their techie toys to share at the end of the week. Further details to follow.

Have a lovely holiday.

The RMS Foundation Team
